

Press release

Turn-key capabilities for Industry 4.0 age

VINCI Energies acquires the Swiss company SI-TEC

Zürich, May 2nd 2022 – VINCI Energies, the multi-technical energy transition and digital transformation pole of the VINCI Group, has acquired the Swiss company SI-TEC GmbH. The company specializes on industrial planning and engineering and has a strong customer base in the sectors life sciences, chemical industry, energy, environment and food. As a result, VINCI Energies is expanding its position in the market for industrial automation and process engineering.

SI-TEC will join the Actemium network, the VINCI Energies brand for industrial performance. In Switzerland, Actemium offers its customers solutions in the fields of electrical engineering, automation and information technology for industry and networked buildings. SI-TEC will complete this portfolio by providing the know-how for engineering services, CAD/CAE plant design and innovative BIM (Building Information Modeling) services.

Thus, Actemium Switzerland will now be able to offer industry 4.0 turn-key projects including creation of digital twins of factories and production lines. On the customer side quality and productivity are going to increase further.

Burim Mirakaj, Member of the Executive Board, VINCI Energies Switzerland AG & President of Actemium Switzerland AG says of the acquisition: "We are excited that with the acquisition of SI-TEC we can fully underpin our growth strategy as a major IT & OT integrator and advance with higher speed."

Sven Herrmann, Managing Director of SI-TEC, adds: "I am very happy that SI-TEC now belongs to VINCI Energies as part of Actemium. With this network, we are able to offer our customers additional services and added value and to develop ourselves further. What has also impressed me over the past months is the high level of cultural consonance that we see with VINCI Energies in many values such as transparency, respect and diversity."
